Patented Interdental Brush System

Welter's present a new generation of Interdental Brush - available in 2 sizes our brushes utilise new technology in plastics moulding, resulting in a wire free and more economical product.

- Constructed from durable, **hygienic plastic resin**
- **Brush head** is moulded in **one piece** for **strength**, no metal or wire
- **Unique triangular shape** fits interdental space
- Safe to use - **no metal** - so cannot scratch tooth enamel
- **Rounded brush head** - kind to gums

- **Mint flavour** to freshen breath
- **Patented technology** lowers production cost due to **one piece brush**
- 2 sizes: S (0.35mm - 1.2mm) and M (1.2mm - 2.2mm)
- 2 pack options; IF-04 'Handy Pick' & IF-03 'Tool Kit'
